Notice

ETT has completed the arm change out for CREZ lines owned by ETT. ETT will be conducting tower inspections and repair work on various flange related towers in accordance with the schedule posted in ERCOT's Outage Scheduler. ETT is on schedule to complete the outages related to the West Texas Arms project by January 1, 2022, barring any unforeseen difficulties with the upcoming tower inspections and weather related delays.

Please see Outage Scheduler for more details. Any additional questions should be addressed to Mr. Blake Gross at bagross@aep.com.
